# MORA INDEPENDENT SCHOOL DISTRICT (MISD) ELECTRONIC INFORMATION SERVICES (EIS) USERS POLICY

Approved 7/15/2014

Note that this agreement applies to both students and employees.

Upon reviewing, signing and returning this Policy, a student will be eligible for computer network and internet access during the remainder of the students' academic career while enrolled at MISD or staff members' career while employed at MISD. MISD cannot provide access to any persons who are 18 or older until the Policy is signed and recorded or to a student under 18, until the "PARENT OR GUARDIAN AGREEMENT" is signed and recorded at his/her school site.

Listed below are the provisions of your agreement regarding computer network and Internet use. If you have any questions about these provisions, you should contact the principal at the school site where your child is enrolled.

## **Background:**

The Internet is an international network of networks and is the communication and information highway today. Through the network your student will have access to hundreds of databases, libraries, and computer services from all over the world. The Internet consists of thousands of computer networks spanning the globe. Your student may also be given an Internet e-mail address allowing him/her to correspond with any of millions of users on the Internet.

## **Purpose:**

The primary goal is to promote educational excellence by facilitating resource sharing, innovations, research and communication for students and staff. MISD's responsibility in preparing our students is to provide them access to the tools they will be using as adults. We believe that use of this teaching your student about his/her role as a network citizen and the code of ethics involved with this new global community.

## **MISD Internet Uses:**

The network is provided for all students on an equitable basis to conduct educational and school-based research and communicate with others. Access to network services will be provided to students who agree to act in a considerate and responsible manner. Access to these supplemental services should be viewed as a privilege, not a right.

A MISD teacher who monitors the student's use of the Internet must sponsor students desiring Internet services through MISD. In addition, the sponsoring teacher must attest to the educational and classroom use, and need for the student's Internet account. These accounts are intended for the duration of the class (assignment).

The MISD network and the Internet are to be used for teacher assigned research projects, communications with scientists, and other students in regard to research projects.
